

BRING HOPE TO KIDS IN FOSTER CARE

When children are removed from home due to abuse or neglect, they often leave with only the clothes on their back and whatever personal items can be hastily gathered up into a trash bag.

CASA for Douglas County partners with a network of child-serving agencies in our community to distribute Hope Packs to children entering foster care or being moved between placements. These backpacks contain essential hygiene and comfort items and serve as a sign of hope to boost children's spirits, and promote dignity and resilience in the face of adversity.
